

Installing Boca Printer Alternative

Some users do not have sufficient privileges to follow “Installing Boca Printer” instructions. This document contains alternative instructions. Before continuing the printer should be plugged in to USB and turned on.

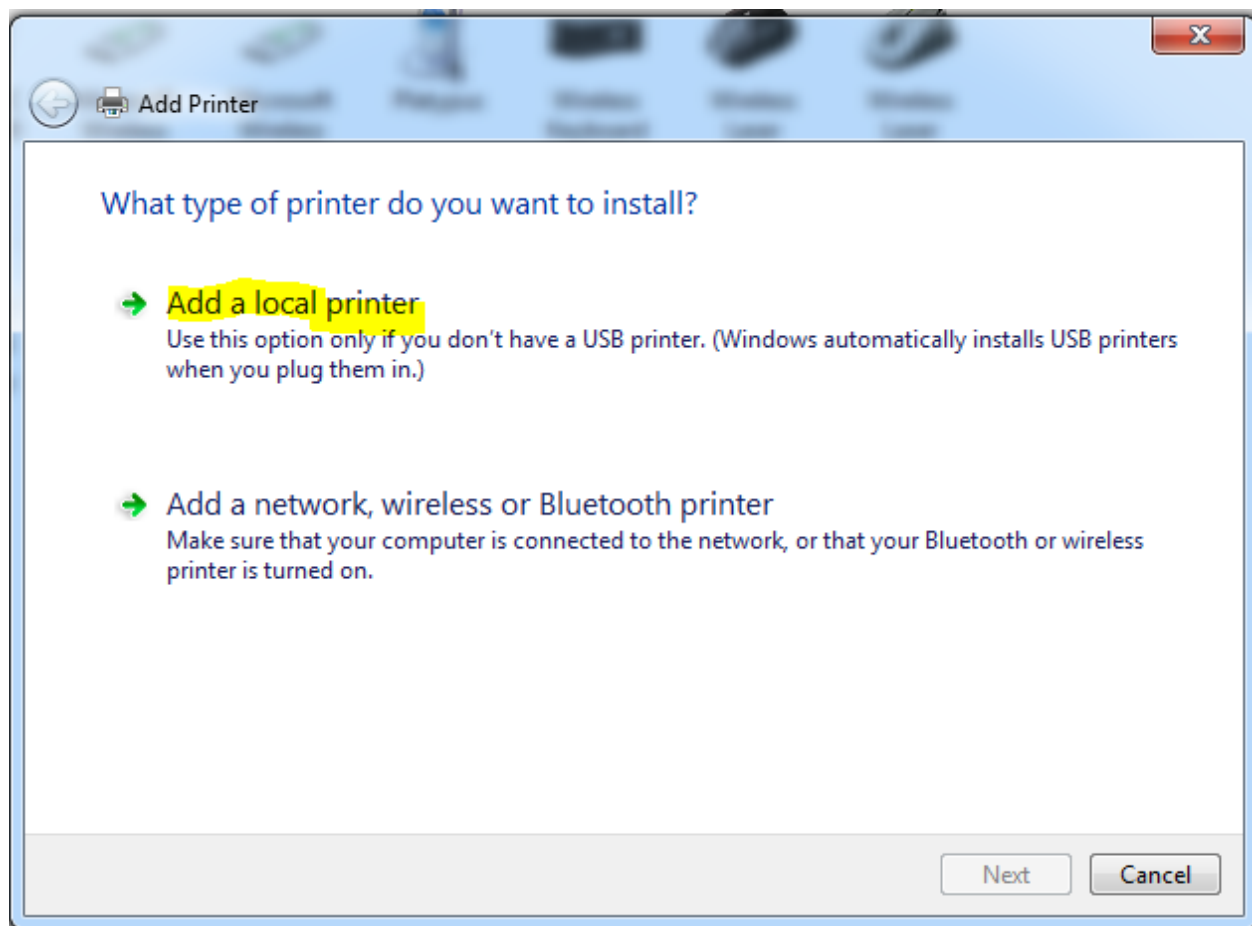

Open Devices and Printers

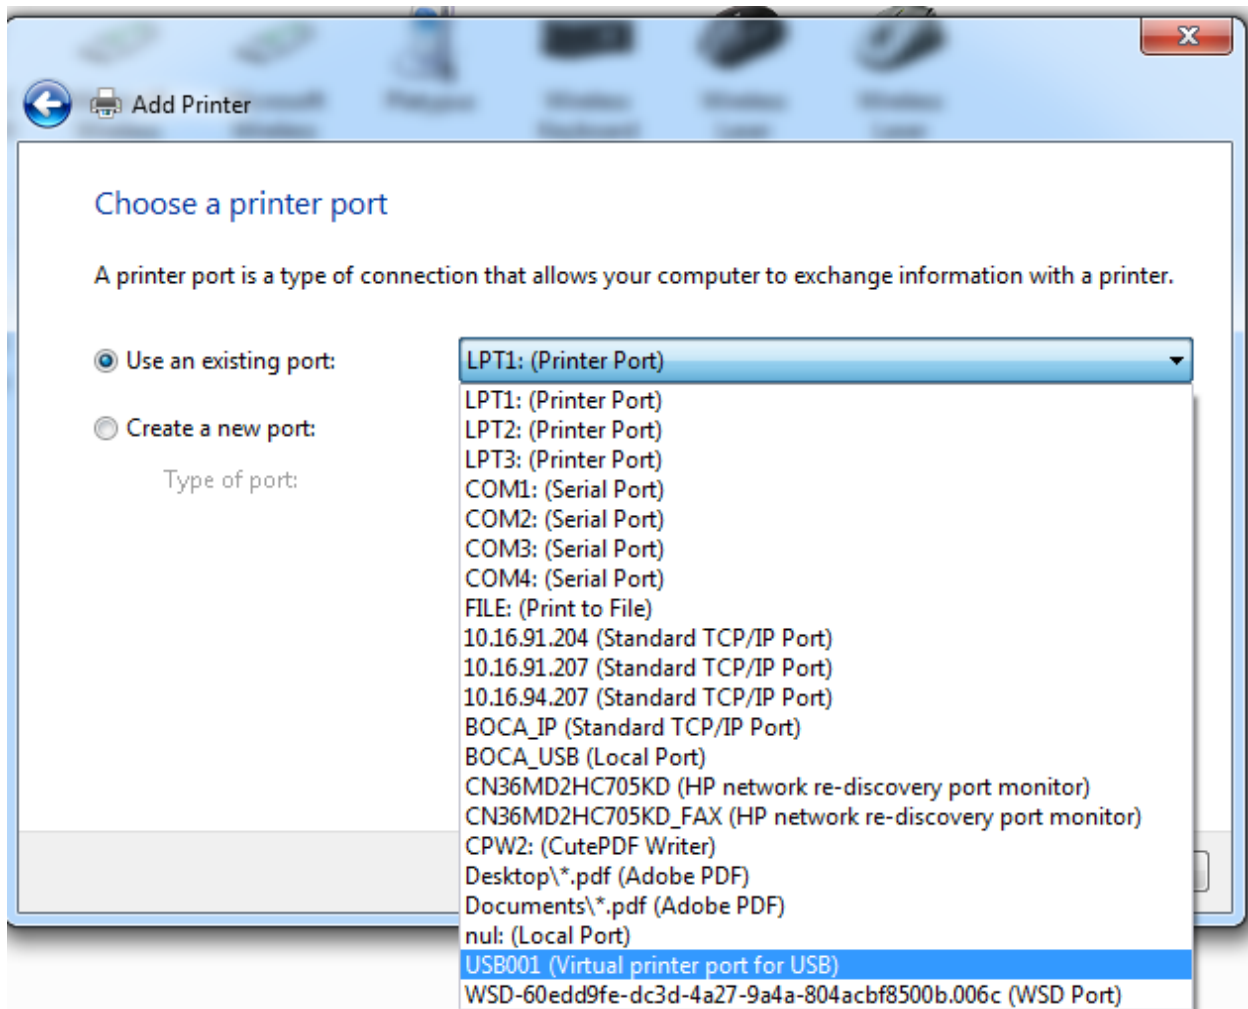

Click “Add a printer”

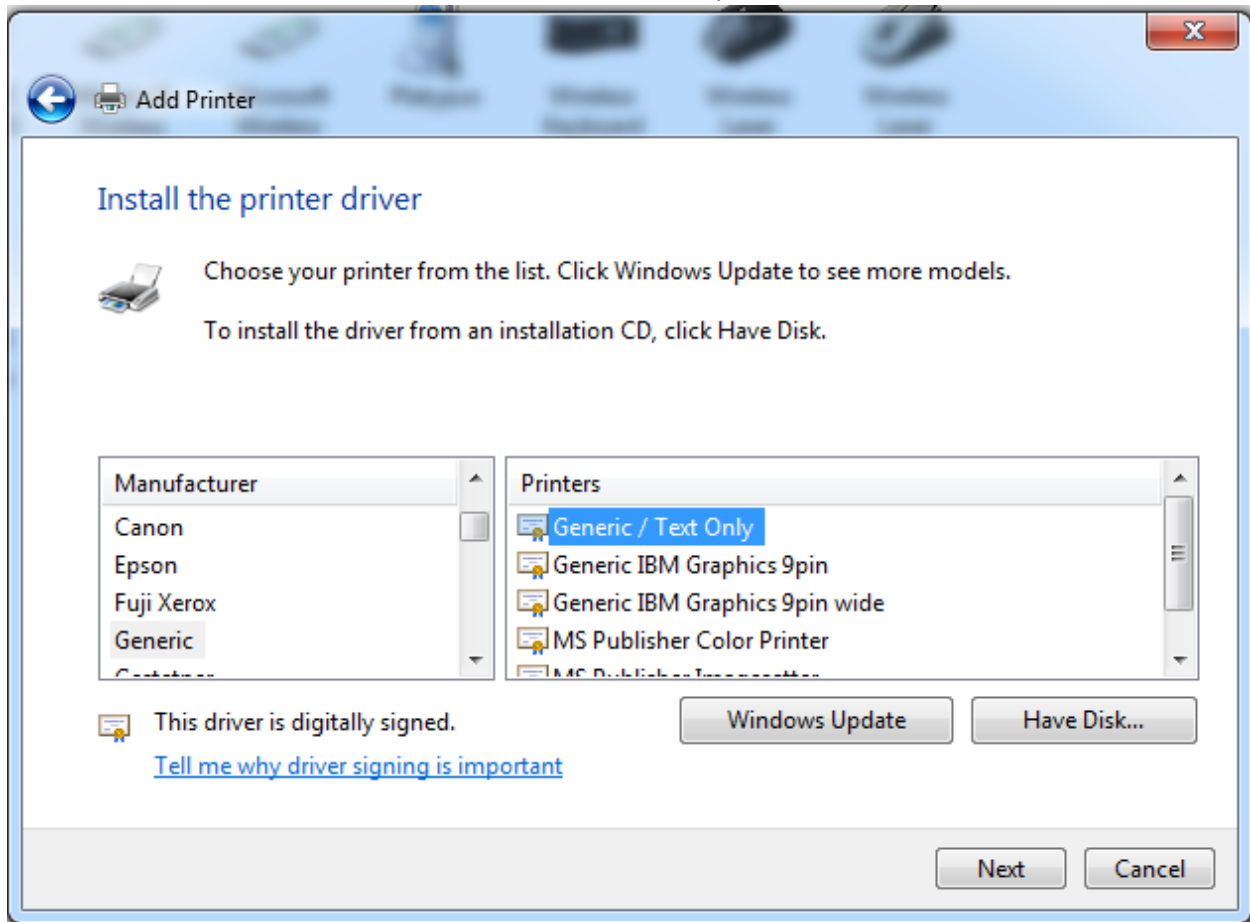

Click “Add a local printer”

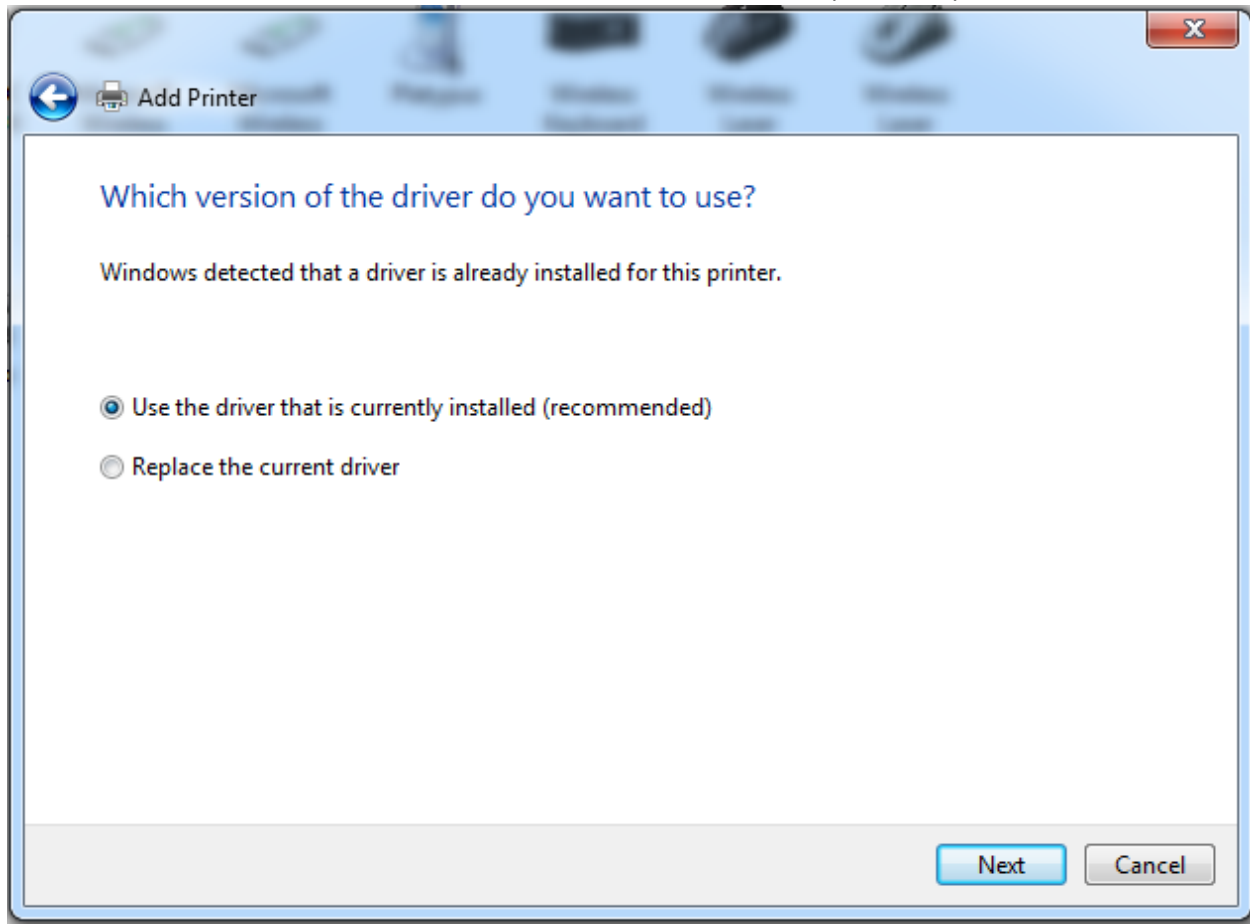

Select "USB001 (Virtual printer port for USB)" from the list. **NOTE:** This is assuming there are no other USB devices installed.

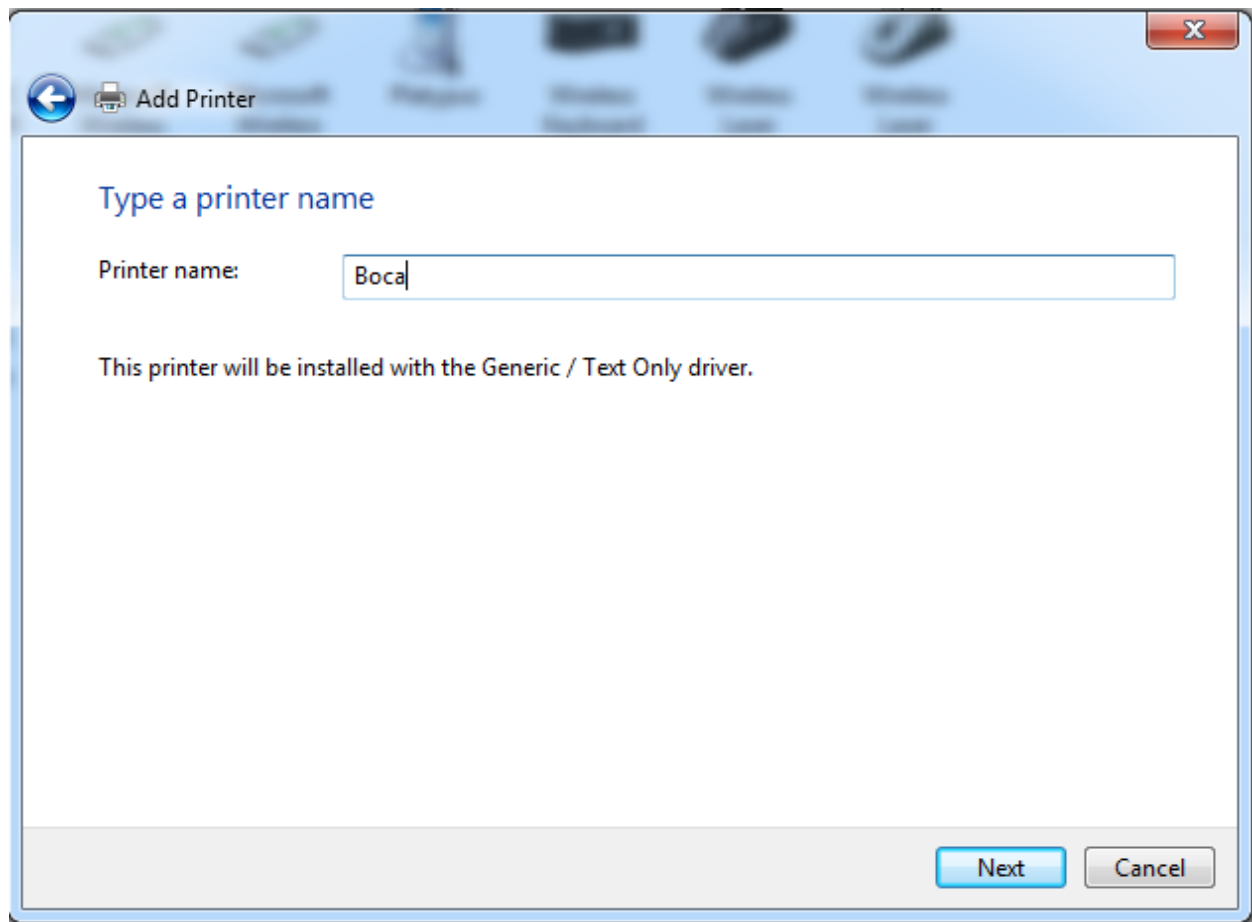

Select Manufacturer Generic and Printer Generic / Text Only

If asked which version of the driver to use select the recommended option and press Next.

Name the printer "Boca" and press Next

Do not share the printer.

The screenshot shows a Windows 'Add Printer' wizard window. The title bar includes a back arrow, a printer icon, and the text 'Add Printer'. The main content area is titled 'Printer Sharing' in blue. Below the title, there is an instructional paragraph: 'If you want to share this printer, you must provide a share name. You can use the suggested name or type a new one. The share name will be visible to other network users.' There are two radio button options: 'Do not share this printer' (which is selected) and 'Share this printer so that others on your network can find and use it'. Below the second option are three text input fields labeled 'Share name:', 'Location:', and 'Comment:'. At the bottom right, there are 'Next' and 'Cancel' buttons.

Printer Sharing

If you want to share this printer, you must provide a share name. You can use the suggested name or type a new one. The share name will be visible to other network users.

☒ Do not share this printer

☐ Share this printer so that others on your network can find and use it
